

What Is an Energy Assessment?

A specially trained participating contractor will examine all the areas of your home that may cause discomfort, have energy-efficiency problems and use too much electricity. The participating contractor will check:

- Insulation levels
- How “tight” or “leaky” your home is to outside air
- Moisture problems
- The condition of your appliances
- The efficiency of your heating and cooling system
- Lighting

ENERGIZE DELAWARE CAN HELP MAKE YOUR HOME MORE ENERGY EFFICIENT SO YOU CAN SAVE ENERGY AND MONEY.

Contact us today for more information or to schedule an assessment!

Energy-Saving Products Installed During Your Home Energy Assessment (valued at up to \$250)

- Lighting (with options for dimmable, candelabra, globe and reflector bulbs)
- Faucet aerators
- Efficient-flow fixed showerheads
- SmartStart™ shower valve
- Water-heater pipe insulation (installed on hot-water pipe)

OPEN THE DOOR TO ENERGY-EFFICIENT UPGRADES

Get a home energy assessment, which includes installing energy-saving products, and you can qualify for significant rebates on energy-saving upgrades from Energize Delaware!

What Is Home Performance with ENERGY STAR® (HPwES)?

Do you have drafty rooms? Hot or cold spots? High monthly energy costs? If so, you might want to take advantage of HPwES. A participating contractor can come to your home to perform a comprehensive energy assessment for the reduced cost of \$50.*

Rebates and Loans

Rebates can cover a significant percentage of the cost of your upgrades.

Attic Insulation	Up to \$1,200
Air Sealing	Up to \$2,100
Boiler	Up to \$1,300
Furnace	Up to \$850
Heat Pump	Up to \$1,400
Wall Insulation	Up to \$2,000

Rebate amounts subject to change. Please visit energizedelaware.org/homeperformance for current rebate levels.

What Is Downtown Development District Home Performance with ENERGY STAR?

If you live in a residential or mixed residential commercial property in one of the Downtown Development Districts, you could be eligible for the Assisted Home Performance with ENERGY STAR Program (AHPwES). AHPwES offers significant rebates for energy-efficient improvements and get a home energy assessment for just \$25.*

The elements of participating are the same as HPwES but include larger incentives!

What Is Assisted Home Performance with ENERGY STAR (AHPwES)?

AHPwES is available to income-qualified property owners (and renters via their landlords). AHPwES addresses the same issues as HPwES and consists of a home assessment at a reduced cost of \$25* and increased incentives for energy-efficient upgrades.

Individuals per Household	Maximum Annual Household Income
1	\$46,500
2	\$53,100
3	\$61,158
4	\$70,598
5	\$80,038
6	\$89,478
7	\$98,918
8	\$108,358

How to Apply for AHPwES

1. Make sure your total annual household income is at or below the maximum annual household income listed
2. Obtain the application by calling **(877) 524-1339** or download a copy from the website at energizedelaware.org/ahpes.
3. Return the completed application to **DEGeneral@FranklinEnergy.com** or mail to:
Assisted Home Performance Program
500 W Loockerman St., Ste. 410
Dover, DE 19904
4. Receive a letter or email from Energize Delaware with your approval or denial.
5. If you are approved, you'll receive instructions to select a participating contractor to perform your home assessment.
6. If you do not qualify, you are still eligible to participate in the HPwES program.

Your participating contractor might use a thermographic camera like this one to assess the effectiveness of your home's insulation.

Why Should I Participate?

- Savings of at least 20% on utility bills.
- Fewer drafts and more comfortable rooms.
- Rebates available to offset upgrade costs.
- Work performed by trained participating contractors.
- Healthier, safer, higher-quality home.
- Decreased greenhouse-gas emissions.
- Increased efficiency and lower monthly energy costs.
- Low-Interest loan available to pay for costs not covered by rebates.

What Additional Improvements Might Be Recommended?

- Increasing insulation levels.
- Sealing air leaks.
- Replacing outdated or malfunctioning equipment.

Rebates are offered for improvements too!

Please note: Your house may have existing health and safety issues or lack of insulation quantity or quality. If identified, your participating contractor will review these issues with you. These issues may need to be addressed before you become eligible for program incentives.

*Maximum \$400 (for HPwES) and \$425 (for AHPwES) immediate assessment discount valid for homes up to 3,000 square feet with a single combustion-appliance zone. Assessments on larger homes or homes with multiple combustion-appliance zones may cost more.
