

As a market-based program, Energize Delaware's Home Performance with ENERGY STAR® Program ("the Program") welcomes and encourages Participating Contractors to promote awareness and interest of the Program and its offerings.

After signing this Participating Contractors Co-Branding Guidelines & Logo Use Agreement Form ("Agreement Form"), Delaware Sustainable Energy Utility doing business as Energize Delaware will make the program name and logo available to Participating Contractors for use in co-branding.

In addition to being able to use the Program name and logo, the Program will support Participating Contractors co-branding efforts with a \$500 stipend, per Program Year. All marketing materials must be reviewed and approved by the Program, prior to use, regardless of stipend- use or non-use. Energize Delaware would like a photo of any signs and a copy of brochures or flyers/brochures being used sent to DelawareHP@franklinenergy.com.

These guidelines are to ensure proper use of the Energize Delaware Program name and/or Program logo. Any use of the Program logo or name must be carried out in accordance with the requirements and guidelines specified in this document.

8. To properly stage the Logo, the minimum size and clear space guidelines must be used, and other elements must be maintained as outlined.

Minimum Size

To protect the legibility and the integrity of the Logo, a minimum size has been established. The minimum size requirement is based on the height of the logo and applies to all versions. Never present the logo in a size smaller than the minimum size shown here.

Clear Space

Another way to ensure the legibility and integrity of the Logo is to surround it by as much clear space as possible. The clear space is a proportional dimension based on the length of one of the rays in the Energize Delaware logo, as shown here. This area should remain clear of other type or graphic elements. While this measurement represents the minimum requirement, the clear space surrounding the logotype may be increased if layout permits.

9. The Logo must stand alone and may not be combined with any other object, including but not limited to other logos, words, graphics, photos, slogans, numbers, design features, or symbols within the clear space requirements of the Logo. The Logo must never be used to represent "Energize Delaware" in text, including in a headline, product name logotype, or body copy.
10. The Logo and/or the Energize Delaware name must not be incorporated or used in any manner as part of, or near another company's name, domain name, product or service name, website title, publication title, logo, trade dress, design, slogan, trademarks, or any potentially confusing variation thereof. The Logo must never appear with any other symbol or icon (except the appropriate trademark or registered trademark symbol), be contained within a box, circle, or other shape; or combined with any other name, logo, or icon to create a co-branded logo.
11. Non-Energize Delaware materials should not mimic any Energize Delaware advertising, packaging, website design, or other materials.
12. Under no circumstances may third parties use, imitate, or play off any Energize Delaware taglines. The taglines are reserved for exclusive use by Energize Delaware.

15. Energize Delaware may, in its sole discretion, limit the quantities of products or other materials that bear its marks. Certain types of projects, products and packaging may require additional or different notices. Please contact the Program for more information and to discuss your intended use.
